

Safety Policy Statement

MAKIN Logistics is committed to conducting its business in compliance with all relevant national and state laws, regulations and other requirements. This commitment includes the safety duties under the Heavy Vehicle National Law (HVNL) and the Work Health and Safety Act to ensure the safety and wellbeing of its employees and the safety of its transport activities.

Makin Logistics values the benefits of promoting and maintaining a safe transport operation for its employees, contractors, customers and other road users. It is committed to undertaking all transport activities in a way that is as safe as reasonably practicable

This commitment includes but is not limited to safe practices and regulatory compliance around :

- Vehicle Standards;
- Driver Condition;
- Mass and Dimensions Management;
- Load Restraint;
- Speed Management.

MAKIN Logistics will commit to the maintenance of a safety management system and the training required to ensure employees and supply chain partners understand their roles in achieving compliance. Management will ensure adequate resources are provided.

MAKIN Logistics will conduct system checks and audits to monitor the compliance performance of our employees and participants within the supply chain.

MAKIN Logistics recognise the need to work with other participants in the supply chain to achieve CoR compliance. This will include our contractors and related suppliers.

The achievement of a safe CoR function is a collective responsibility involving everyone involved in the MAKIN Logistics business. In working with MAKIN Logistics, as either an employee, contractor or supplier, you will acknowledge our desire to maintain high standards of compliance in relation to CoR and work with us to achieve our goals.

This CoR policy statement further reinforces MAKIN Logistics commitment to a proactive approach to risk and compliance across all facets of our business.
